Summary

Experienced Frontend Developer with 5+ years of expertise in building performant and scalable web applications. Proficient in HTML, CSS, JavaScript, React.js, Vue.js, Next.js, Tailwind CSS, and Bootstrap. Skilled in responsive design, cross-browser compatibility, and frontend best practices.

Adept at working with SQL, Postgres, and MongoDB databases, integrating APIs, and implementing security measures. I excel at translating designs into user-friendly interfaces, optimizing performance, and writing clean, reusable code. Strong problem-solver with a passion for creating innovative user experiences using cutting-edge frontend technologies.

Thriving in fast-paced environments, I leverage my attention to detail and ability to work independently or as part of a team. Committed to staying current with the latest frontend trends and techniques, I am driven to deliver solutions that meet business objectives while providing exceptional user experiences.

My technical stack includes HTML, CSS, JavaScript, React.js, Vue.js, Next.js, Tailwind CSS, Bootstrap, SQL, MongoDB, API integration, performance optimization, and security measures. I excel in collaborating with cross-functional teams in fast-paced, agile environments.

Experience

Frontend Web Developer

Fiverr

Jan 2020 - Present (4 years 5 months)

I've been in the Web Development field for the last 5 years, focusing on the latest frontend technologies including HTML5, CSS, React JS, and NEXT JS. I am dedicated and passionate about my work, excelling in designing and developing interactive and user-friendly interfaces.

I have experience working on a variety of projects, creating layouts that are fixed, flexible, and fully responsive. My primary goal is client satisfaction, and I am committed to delivering high-quality work that meets and exceeds expectations. I believe in maintaining strong communication and a high level of commitment to ensure the best results for my clients.

As I am serving, my technical stack includes HTML, CSS, JavaScript, React.js, Vue.js, Next.js, Tailwind CSS, Bootstrap, SQL, MongoDB, API integration, performance optimization, and security measures. I excel in collaborating with cross-functional teams in fast-paced, agile environments.

Frontend Web Developer

Relevance Studio

Mar 2023 - Feb 2024 (1 year)

Excited to announce my joining at Relevance Studio as a Front-End Developer, where I fused my passion for design and code with my expertise in Next.js. Over the past year, I crafted immersive web

experiences that resonated deeply with users, turning ideas into emotional journeys. My role involved designing captivating visual narratives, crafting seamless interactions, and ensuring perfection across all devices. I utilized my skills in HTML, CSS, JavaScript, React.js, Vue.js, Tailwind CSS, Bootstrap, SQL, MongoDB, API integration, performance optimization, and security measures. Thrilled to let my work become the canvas for my creative expressions, I collaborated with cross-functional teams in a fast-paced, agile environment. Let's create magic together!
